

The easiest way to start flying.

At SiFly, we embrace foiling as the future of watersports and aim to develop accessible, high-performance and sustainable watercraft. What drives us is the will to provide the ultimate balance between quality, performance and value. We set no limits on precision, efficiency and athleticism, and always strive towards further developments and improvements.

After years of intense R&D and countless hours of testing, SiFly now offers a wide range of electric hydrofoils for all levels of experience and preferences.

Stellar R

The sweet-spot of eFoils just got sweeter.

The Stellar R embodies the perfect blend of usability, versatility, and performance. Now with an improved board architecture that minimizes resistance during touchdowns, the Stellar R encourages rapid progression. Striking a harmonious balance between stability and agility, the Stellar R provides a controlled and sporty ride across all conditions.

Stellar S

The ultimate carving machine. Redefined.

The Stellar S provides an extraordinary blend of sportiness and aggression. Bolstered by a lowered swing weight and enhanced rigidity, it offers an unparalleled carving experience and heightened wave-riding capabilities. The Stellar S takes eFoiling to new dimensions, making every ride a triumphant adventure in control and precision.

Stellar X

Ride the edge.

As the smallest and most agile performance board, the Stellar X redefines what's possible on the water. Built with cutting-edge carbon construction, it's incredibly lightweight and rigid, offering unmatched responsiveness for seamless edge transitions and precise control. Whether you're carving through waves or making tight turns, the Stellar X feels effortless, direct, and intuitive beneath your feet.

SiFly E

A lucrative business asset.

The biggest board in our range offers the lowest planing speed and the highest volume on the market, making it perfect for beginners and heavier riders. Designed to be a lucrative asset for any school, yacht charter, or watersports center, the SiFly E is stable and easy-to-ride. The short learning curve and the gripping riding experience will leave your clients hungry for more.

Rider +

A safe and comfortable cruiser.

The Rider + is our affordable, midsized eFoil. Stable, durable, and safe, it is the go-to option for any school, yacht charter, or watersports center. With a shock-absorbing, soft-top construction, the Rider+ prioritizes beginner riders' comfort and safety. This deck ensures added protection for those prone to falls, making learning to eFoil less intimidating and more accessible.

Rider

Accessible performance.

The SiFly Rider is the perfect choice for all surfers looking for an affordable high-performance board. The compact outline allows for aggressive carving, while the aluminium subframe ensures the board remains rigid and responsive. With a compact hull shape that delivers snappy turns and provides instant touchdown recovery, the Rider is the perfect eFoil for riders looking to progress.

Cruiser L

Cruiser 1900 + CR340

The Cruiser L wingset is designed for beginners and heavier riders looking for a stable and easy ride. With its large surface area, this Cruiser 1900 wing offers the lowest take-off speed on the market — just 15 km/h, while the CR340 stabilizer provides excellent roll and pitch control. Novice riders will master their balance and turns in no time.

Characteristics

Performance	● ○ ○ ○ ○
Versatility	● ● ● ○ ○
Ease of use	● ● ● ● ●

Specifications

Construction	Carbon composite
Wing Size	1900 cm ²
Stabilizer Size	340 cm ²

Use

Skill Level	Beginner
Discipline	Learn & Cruise
Use	Commercial
Speed Range	15 - 32 kmh

Cruiser S

Cruiser 1300 + CR300

The Cruiser S wingset strikes the perfect balance between stable cruising and dynamic carving. Based on the Cruiser 1900 but with a reduced surface area, this wing has been optimized for higher speeds and increased agility. When coupled with the CR300 stabilizer, this wingset provides a maneuverable, stable and predictable ride.

Characteristics

Speed Range	18 - 38 kmh

Sport

Sport 700 + SP240

The Sport wingset is designed and built to meet the demands of experienced riders who crave high speeds, aggressive curves, and extreme riding. With its ventilation-resistant design and reduced surface area, this wingset delivers unparalleled performance characteristics, remaining fast, responsive and maneuverable in any conditions.

Powecell LR

Charged for your next adventure.

The SiFly PowerCell LR is our long-range battery pack. The shockproof outer shell, triple short circuit protection, and our smart Battery Management System (BMS) make it an extremely safe and durable power source. Inside, battery cells from the highest quality and capacity give you enough energy for up to two hours of cruising, carving and waveriding.

Specifications

Capacity	44.8 Ah
Energy	2.3 kWh
Charge Time	2.5 h
Weight	12.5 kg

Remote Controller

Power at your fingertip.

The wireless Remote Controller lets you manage your eFoil effortlessly. Cleverly designed to work as an ergonomic handlebar, riders can simply lean on it for stability, making standing up easier. The SiFly RC provides a clear and easily readable overview of ride telemetry like speed, distance, battery capacity and more.

Specifications

Gears	20
Control Modes	2
Charging	Wireless

Colours

Boardbags

Keep your gear safe during travels.

Most SiFly eFoils come with a set of travel bags to make it simple for riders to bring their gear on all their adventures. These cases are thoughtfully designed to be compact, easy to transport, and provide proper protection.

Boardbag

Lightweight and durable, with heavy-duty materials and protective padding, it provides ample protection for your SiFly board.

Hydrofoil Case

The motor group case houses the hydrofoil unit and all of its components.

Rover Wheels

Additional off-road wheels can be fitted onto your boardbag, letting you traverse challenging terrain with ease.

Colours

EZ GO

eFoiling made easy.

Learning to ride can be a challenge even on the easiest eFoil like the SiFly E. To make the sport even more accessible, we developed the EZ GO stabilizer. This patented auxiliary unit attaches onto the mast and prevents beginners from flying too high and breaching the water surface with the fuselage and wings, which oftentimes results in a fall.

DragonFly

Control is in your hands.

The DragonFly is designed to give beginners more control over their eFoil. The removable handlebar substantially enhances the rider's balance and stability. The SiFly Remote Controller integrates into the handlebar seamlessly, while the thumb throttle built into it puts the power at your fingertip. Accelerate and slow down with the ease of an electric scooter.
